Senator Sherman, in a speech delivered Columbus, Ohio, on the 21st instant have resulted one of the ramous groupe of bronze horses at Milan. They appear eager to depart in every direction, build nowhere. They tell us they hold good to the old Democratic doctrine of annexation. thus exposed the "New Departure" dogma of the Democratic party to be the "lost cause" in disguise:

We would have greater cause for rejoicing if we did not see so many reasons
for regarding this "New Departure" as a
Trojan horse, a new device of the enemy
to steal into our camp and betray our
cause. What do they mean by denouncing tha autraordinary means by which the

Yet they would derange all overt purpose to defeat them? Is this new Kentucky resolution of 98, containing the bereay of secession and nullification? The Fourtsenth Amendment is tion? The Fourtseath Amendment is mainly only the true interpretation of the old Constitution, but the vital principles and guarantees of the old Constitution were nullified by struct construction, or naturally false construction, hence the network of the Fourteenth Amendment, which defines who are citizens, what are which defines who are citizens, what are the rights of a citizen and smallfaults. When we repeal eighty millions to the contraction of the contraction of the party in Congress ever proposed the rights of a citizen and smallfaults. When we repeal eighty millions

cessity of the Fourteenth Amendment, which defines who are citizens, what are the rights of a citizen, and specifically gives Congress the power to enforce them by appropriate legislation. If Calhoun's doctrine of strict construction is to be revived to defeat the amendments, then nothing is settled. What we mean is that these amendments are the logical result of a great civil war which brushed from our atmosphere ell taint of slavery, secession and Calhounism; that they shall have their full operation as coording to the plain meaning of English words, and that Congress shall from time to time pass laws to enforce them, and that the President shall execute these laws fully and sufficiently, subject only to the indicial power of the courts of the United States. If that is what they mean by the New Departure it is all right; if y the New Departure it is all right; if not, it is a mere political trick, too shallow to mislend or deceive any one. Again, what do they mean by their fifth resolu-tion? Is it the more maked axiom that HOW WE LOOKS AND ACTS IN HIS CELL A reporter of the New York Commer-cial Advertiser visited Foster, the mursed by Congress are subject to repeal? If so, why pompously utter what all admit? But the context shows that they mean a repeal of all the sots passed to enforce the amendments. Without the appropriate legislation they are more dogmas without inherent power of enforcement. The Ten Command manufacture of the cell, with an open book on the knee. What use is it to say that all men shall have equal civil political or civil rights, unless the law polytical or civil rights, unless the law nunishes a violation of said rights? What does the New Aparture mean except to say that we recognize the smeadment but will repositive invertises assess than it.

The citizens of any one of the States had all the privileges and immanities of citizens in the several States, and yet for years a citizen of the North could not said did not enjoy his rights in the South. Judge Hoar, of Massachusetts, was expelled from South Carolina for the the South. Indge Hoar, of Massachusetts, mother, who are maremitting in their atwars expelled from South Carolina for the more effort to appeal to the Courts of South Carolina for protection from illegal impresonment of a citizen of Massachuserts. The Democratic party, by what they call strict construction, and by their refural to pass appropriate laws, attripped the Constitution of half its vitality. Do they wish in the same way to plausible man believe that a Democratic to induce him to think periously on his Congress could or would pass any law to cancer any of these amendments? Every effort of ours to enforce them has been met by the most volent parliamentary opposition, and the laws have been resisted to his salutary remarks, and though has position, and the laws have been resisted by organized violence. Now they tell us they will repeal the laws, and yet they recognize the smendments. They believe in the Maine liquor law, but are opposed to its enforcement. They sonfess their sins but will surely repeat them. The New Departure is good enough Morgan until after the election, and then their platform will be found loose enough for them all to usep through, and follow their old course of hate, persecution and violence. While these tricks are played upon us here, the mass of the Democratic voters old course of hate, persecution and vio-lence. Litramile stiorming Meruld. The Care of Children. The Care of Children.

The following timely and practical remarks upon the care of shildren, we find in the Philadelphia Ledger. Its council should be beeded by every mother: While we recognize excessive atmospheric heat as the chief sustaining cause of cholera infactors, we cannot but notice at the same time, that its power is greatly increased by the coincident operations of toething and weaning; and hence the omnon observation that children are most liable to cholers in the recond summer of CAPITAL, \$50,000,000! A necessary prelimi-nary and indiscensible condition for the cure of any disease is a withdrawal of the Ætna, of Hartford, Home, of New York, cause; but in the present instance, two of the causes, continued high heat and teeth-ing, are beyond human control. The utmost that can be done is to weaken the force of these agencies. The suck child should be taken into the outer air where it is fresher and purer than in the often confined quartors at home. The desired change may be pro-cured in any one of the many open squares of the city, in the park, and in creaing the Delaware, and short excursions up or Wyoming, Wilksbarrs. Pa. Weaning an infant in the summer menths, or even on the approach of warm weather is a very serious matter, by its depriving the little being of the natural food, that on which it chiefly subsisted from birth, and substituting other substances which tesk unduly the stomach and bowels, already in an irritable state by the continued action of high heat and teething. Unless other of criscum-tances prewent the mother from giving healthy milk INSURANCE CO. to her child, even though it be only in small quantity, it should never be weaped in the summer half of the year. When additional food is required, or when the natural supply is entirely out off, the most ase may be, is good cow's milk, with the addition to it of wheat flour, or of ground rice, arrow root or at and crackers, well mixed and elightly said.
